**TO WHOM IT MAY CONCERN**

Recently an outbreak of infection related to COVID-19 (coronavirus) was found in two regions of Italy, several cases have been detected by our National Health System and are under treatment. Strict quarantine procedures have been applied to these areas.

Nobody here at Endura neither comes from nor has been recently visiting the areas subject to quarantine. Precautionary and prevention measures have been taken to guarantee and protect all our employees and stakeholders, following the established emergency plan that become effective since Monday 24th, February.

The Company operations remain unchanged in order to guarantee production and shipments continuity, for the time being we do not foreseen any disruption in the supplies of the products manufactured in our site located in the city of Ravenna. In case of further developments, we will promptly inform the market.

In case you need further information or assistance you can contact our Procurement (elugaresi@endura.it) and Marketing & Sales Departments (gvezzulli@endura.it).

In Faith,

Matteo Campanati

General Manager

Endura SpA
